

## Answers to Worksheet on Non Standard Ionic Compounds

- |                            |                             |
|----------------------------|-----------------------------|
| 1. $\text{UO}_2$           | 11. $\text{PbO}_2$          |
| 2. $\text{PbS}_2$          | 12. mercury(II) oxide       |
| 3. tin(IV) oxide           | 13. vanadium(V) oxide       |
| 4. $\text{MnO}_2$          | 14. $\text{SnF}_2$          |
| 5. antimony(III) sulfide   | 15. $\text{Cr}_2\text{O}_3$ |
| 6. $\text{Fe}_2\text{O}_3$ | 16. titanium(IV) oxide      |
| 7. mercury(II) sulfide     | 17. gold(III) chloride      |
| 8. molybdenum(IV) sulfide  | 18. $\text{UF}_6$           |
| 9. $\text{CuS}$            | 19. nickel(II) bromide      |
| 10. iron(II) sulfide       | 20. $\text{CoCl}_2$         |
